SOCCER FOOTBALL GAINING

FAVOR WITH AMERICANS That soccer football is gaining steadily in this country is evident from the fact that close upon a hundred teams entered the competition for the national challenge trophy conducted annually by the United States Football association, and which is now going through its regular elimination process. Of outstanding interest in 1919 was the tour of the team representing through its regular elimination process. Of outstanding interest in 1919 was the tour of the team representing the Bethlebem Steel company's football club, winner last apring of the lectilebem Steel company's football club, winner last apring of the body and the Championship of the National Football league. The Penneylvaniars, reinforced by a few players from other prominent clubs, visited Sweden and Denmark and playing 14 games, made a record of seven victories, five drawn games and only two losses. The defeats were incurred at Stockhoim and Gotheburg the rival secore centers of Sweden. The redoubtable Danish team was held to a draw at Copenhagen.

After their return to this country the Bethlebems filled six of their various engagements here and then in the National league fixture with the New York Poetball club met the first defeat of the season last Sunday. The national champions hold the cups of both the United States Football association.

BOWL FOR BIG FIGHT

New Haven, Conn., Dec. 26.—A proposal that the Yale bowl be leased by
the university to a New York syndicate which is bidding for the Dempsey-Carpentier championship fight
was made today to Prof. Clarence W.
Mendell, chairman of the Yale board
of control. It was learned that \$50,000
was tentatively offered for the use of
the bowl for one day next summer,
providing the syndicate is successful
in securing the bout.

Professor Mendell told the representatives of the syndicate that Yale
could not consider the proposal.

I have herad considerable comment about the Christmas game played here in Danielson. In the first place, the management does not approve of stalling, so-called and we will try and avoid it as much as possible. The public must bear in mind that if they so far forget themselves as to say things to the players and referee that they would hardly recognize in print as language they use in their excitement, the players, under tremendous excitement and anxiousness as winforget themselves and sometimes overstep the rules of the game. They should not be censured but encouraged to play good clean ball. The players cannot give their best services unless they believe the majority of the audi-

London, Dec. 25.—Two American and Johnny Griffiths, welterweight, and Johnny Griffiths, welterweight, decisively defeated French opponents. In what was to have been a 20-round but Moore made Eugene Criqui quit in the 14th round, while Griffiths scored scored a technical knockout over Francois Charles in the third round. Both Criqui and Charles declared that they had been hit low.

Ted "Kid" Lewis administered a bad beating to Matt Wells in 12 rounds. cutting his face to ribbons and breaking his nose. Wells gave up the unequal struggle in the 12th round.

Moore severely trounced Criqui. In the 14th round the American saled into the Frenchman and with a hard right hook to the stomach that caused Charles to refuse to continue with Griffiths. He likewise cialmed that Moore had fouled him, but he made no formal protest. It was also a right hook to the stomach that caused Charles to refuse to continue with Griffiths. He likewise cialmed that the American's blow was low.

During the evening Georges Carpentier, the European heavyweight champion, boxed a three round exhibition bout. Joe Beckett, who recently was knocked out by Carpentier, entered the ring and requested another aght with the Frenchman.

The following program has been decided upon by the athletic directors of the French army, at the head of whom is Col. See, chief of the Joinville school of athletics, for the French army. Elimination trials will be conducted in every regiment of the above three classes, each soldler making a specialty of the sport for which he has shown the greatest inclination and to which he has been pronounced fittest by the doctor of the regiment. These trials will occur after three, four and perhaps six months of preparatory training under the eye of an athletic director. Soldiers who have shown class warranting their undergoing further training will be picked out and directed to one of the large centers nearest their billet—Strasburg Lyons, Marseilles, Bordeaux and Paris.

the men chosen as being worthy of further trial will reach their various headquarters some time in the spring. Then semi-finals will be held in Starsburg Lyons Marselles and Bordeaux and it will be a case of the survival of the fittest. These will be sent to Joinville, near Paris, where the final touch will be put to their preparation.

Fifty chiefs of battalions are just now finishing a special course of training at the Joinville school, and in a few weeks will be disseminated among the garrison towns of France to commence the training of the men and officers. Two hundred officers and 150 men are already hard at work at the school, some of them training in their own behalf, others getting ready to take in hand the men who will be sent to them from the provinces. Join ville is close to Pershins stadium and the final work of the Olympic candidates will be dene at the former American stadium.

One million francs of the 10,000,000 voted by the chamber of deputies for the intensification of athletic training among French youths has been appropriated for the work at Joinville. # Three Beaten Paths

A few days ago we quoted from a number of famous men on saving money as an essential to success.

There are a thousand ways of saving money. We have all tried our little pet schemes and have found out that most of them do not lead us anywhere but dwindle away into nothingness after a while.

After all, there are three broad paths for the man to follow who wants to save money to real advantage. One of them leads to the bank, the second to the land, and the third to the other man's business.

The bank is splendid. It is usually and properly the first station in a man's money saving journey. But it has its limitations. Ask yourself what the bank does with your money and you will soon see that with a little study you might make that money earn more than the bank can possibly afford to pay you in in-

Real Estate. It has been called the foundation of all wealth. It has also been said, however, that a man must have a real estate nose to make it pay. In other words he must have a keen intuition for property values and the trend of community development. He must also be endowed with infinite patience and very real business ability in order to solve successfully the many problems of upkeep and tenancy of improved real estate.

The third path leads to a very interesting field. The other man's business is always interesting. We invite you to examine it with us in the next article in this
